Project: Dementure Care

Client: Methodist Homes for the Aged

Value: £15,000.00

Duration: 4 weeks

The structural alteration of an existing office into an en suite bathroom and bedroom for elderly dementure care. The works involved demolition, new partitions, flooring, underfloor wet heating, nurse call fire alarm, security, data, specialist sanitary ware as well as plastering, decorating etc. The care home was in occupation so our work had to be carefully planned and intergrated, consideration given to residents and their particular needs.
