

Healthcare

Project: Internal alteration and refurbishment

Client: Central and North West London NHS Foundation Trust

Value Range: £100,000

Duration: 9 weeks

Pembury secured the refurbishment works following a competitive tender with five other preselected contractors.

The works include the adaptation and refurbishment of the ground and first floor of the existing clinic to provide office space for new Child and Adolescent Mental Health Services including removal of existing partitions, inserting new steel beams and columns, adapting mechanical and electrical services, new reception area, flooring, decoration, two new windows on external elevation.

The first floor load bearing brick work had to be removed following complex propping.

The works were completed on time and to a high standard.
