Healthcare

Project: Wanstead Place Health Centre and The Diabetic Centre

Client: Redbridge PCT

Value Range: £250,000

Duration: 10 weeks (including works out of hours)

Pembury were invited to tender for these projects and secured both following an open market competitive tender. Wanstead Place involved a general strip out of the existing kitchen, electrical and heating systems, and structural remodelling of the reception area. The new works included; Reception area and counter, new heating services, kitchen, full rewiring for small power, data, fire alarm, intruder and lighting. New flooring and decorations throughout.

The Diabetic Centre works were focused on the provision of a new reception area with new counter, fire shutters, data, lighting and small power. Also decorations and new flooring. These works were completed while maintaining the client's day to day operations.

"Just to let you know that I was really impressed with how things are coming together at Wanstead Place Clinic. ..."
